

AMENDMENTS TO THE DRAWINGS

The attached sheets of drawings includes proposed changes to Figs. 1 and 3. These sheets replace the original sheets.

In the replacement sheet for Fig. 1, the set-top terminal/television has been re-numbered with reference number 15. A corresponding amendment has been made to the specification.

In the replacement sheet for Fig. 3, the element identified in paragraph 2 of the Office Action (namely, the "Time" node >930 AM having the leaf node POS 79.4) has been associated with the Station_Call_Sign 315 root node, as suggested in the Office Action. The Time node has been given reference number 361 and the leaf node has been given reference number 376. "HBC" has been designated as the particular station call sign, consistent with Fig. 4. Corresponding amendment has been made to the specification at page 8.

The attached sheets of drawings also include proposed new Figs. 7A and 7B. These are submitted to comply with the objections given in paragraph 3 of the Office Action and are further discussed in the "Remarks" section below.
